PROFILE

Innovative UI Tech Lead with over 16 years of experience, dedicated to leading teams, fostering growth, and revolutionizing user experiences. Passionate about staying ahead of the curve, I continuously update my skills and contribute to company success. My goal is to make a positive impact in UI development by creating visually appealing and user-friendly interfaces. I thrive in collaborative environments, nurturing teamwork, and embracing creativity. With an insatiable thirst for knowledge, I am committed to shaping the future of UI development. Seeking opportunities to utilize my expertise and drive exceptional results in a dynamic, forward-thinking organization.

WORK EXPERIENCE

UI Tech Lead

<https://swivelt.istrives.com>

Nityo infotech services pvt ltd (Dwarka - Delhi)

12-June 2017 – Till

- Creating an exceptional online platform experience by offering reliable technical support, ensuring everything runs smoothly, and swiftly fixing any technical glitches that may arise.
- Developing iStrives, a powerful performance management tool designed to boost productivity and drive business success. With its user-friendly interface and advanced functionality, iStrives enhances performance management capabilities, empowering organizations to achieve their goals and fuel growth.
- I took on the role of Project Manager and played a key part in helping our company achieve CMMI Level 3 & 5 certification. I actively participated in the certification process, working closely with the team to meet the high standards required. This accomplishment demonstrated our commitment to quality and positioned our company for success and recognition in our industry.

UX Engineer

<https://www.nykaa.com>

Nykaa (Lower Parel - Mumbai)

16- May 2016 – 26 May 2017

- I revamped a customer-friendly e-commerce website, attracting 20,000+ monthly unique visitors. The redesigned interface enhanced user experience, boosting engagement.
- Additionally, I created custom mobile components with automated image optimization to improve performance and loading speed. This optimization delivered a seamless browsing experience for mobile users, further enhancing satisfaction and efficiency.

UI Developer

Nityo infotech services pvt ltd (Dwarka- Delhi)

3 March 2014 – 4 Feb 2016

- In my role, I took on the responsibility of transforming the design team's UX wireframes and mock-ups into user-friendly interfaces that work seamlessly. Through effective coding and integration of design elements, I made sure the final product was in line with the intended user experience and delivered an attractive interface. This involved careful attention to detail in implementing the required code and design components, resulting in a visually appealing and intuitive interface that enhances the overall user experience.

MUKESH KUMAR ROY

UI TECH LEAD

EXPERTISE

WORK EXPERIENCE

UI Developer

<https://www.donebynone.com>

DoneByNone (Gurgaon - Delhi)

26-Nov-2012 to 28th-Feb-2014

- As an integral part of the team, I played a key role in creating visually captivating interfaces by translating UX designs into functional UI elements. This involved implementing code and design elements to ensure consistency, usability, and accessibility throughout the user experience. By focusing on delivering a seamless and engaging interaction, I contributed to the overall success of the product, providing users with a satisfying and immersive experience.

HTML Developer

<https://www.meritnation.com>

Applect Learning System (Meritnation) (Okhla Delhi) 1-March-2011 to 25-Nov-2012

- In my role, I was responsible for creating and structuring web pages using HTML markup. I ensured that the code was semantic and accessible, adhering to best practices. Additionally, I implemented responsive design principles to make the websites adaptable across different devices. Optimizing web pages for optimal performance was also a priority. Collaboration with UI/UX designers and developers was essential in delivering high-quality websites and exceptional user experiences. Through my contributions, I aimed to create visually appealing, functional, and user-friendly websites that met the highest standards of quality.

Web Designer

<https://tech-soigne.com>

Soigne Technologies Private Limited

1st Jan 2007 to 28th Feb 2010

- Visual Appeal: I focused on creating visually captivating websites by carefully designing wireframes and mock-ups that showcased a seamless and visually appealing user interface.
- User-Friendly Design: I prioritized user experience by selecting intuitive color schemes, typography, and layout, ensuring an effortless and enjoyable navigation experience for website visitors.
- Responsive Design: I implemented responsive design principles, optimizing websites to adapt and perform optimally across various devices and screen sizes.
- Performance Optimization: I consistently optimized website designs for fast loading speeds and overall performance, improving user satisfaction and search engine rankings.
- Collaboration: I closely collaborated with UI/UX teams, developers, and stakeholders to ensure a cohesive and effective design approach, meeting project goals and objectives.
- Visual Enhancements: I contributed to the overall design aesthetics by creating engaging graphics, icons, and other visual elements, elevating the website's visual appeal and user experience.
- By combining my creativity, technical skills, and collaborative approach, I strived to deliver exceptional website designs that leave a lasting impact on users.
